

Front End Software Engineer - Web

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Develop and maintain websites and web applications with HTML5 and JavaScript
- Work closely with designer to translate design into web pages and applications
- Optimize for performance and compatibility across a vast array of web-capable devices and browsers

We are looking for someone who has:

- Strong proficiency in JavaScript, DOM, and HTML5
- Experience with integration with 3rd party systems and services (payment, authentication, etc.)
- Enthusiasm in beautiful websites with amazing user experience

Bonus points if you:

- Can demo a product of your own

Please send your application to : **riley.smith@arevo.com**

Front End Software Engineer - React.js

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Develop user-facing features using React.js
- Build reusable components and front-end libraries for future use
- Translate designs and wireframes into high quality code
- Optimize components for maximum performance across a vast array of web-capable devices and browsers

We are looking for someone who has:

- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model
- Experience with popular React.js workflows (such as Flux or Redux) and data structure libraries (e.g., Immutable.js)
- Familiarity with RESTful APIs and modern authorization mechanisms, such as JSON Web Token

Bonus points if you:

- Can demo a product of your own

Please send your application to : **riley.smith@arevo.com**

Backend / Full-stack Software Engineer

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Build complex cloud software to manage and control machine hardwares located in multiple places
- Design scalable architect to drive performance and reliability
- Enable storing and processing large amount of data for real-time feedback to machine performance

We are looking for someone who has:

- Front End development experience in modern frameworks (e.g., React/Redux)
- Backend service experience in managed languages such as Java, Scala, Go, C#, or similar
- Strong experience with database, especially SQL and Cassandra

Bonus points if you:

- Knowledge or experience in material engineering
- Hands-on experience in data engineering and science

Please send your application to : **riley.smith@arevo.com**

Infrastructure / DevOps Engineer

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Design, implement, and maintain a cloud infrastructure for web applications (AWS preferred)
- Design, implement, and manage integrated build/test/release environments (Jenkins, git, Jira, etc.)
- Manage code deployments, fixes, updates and related processes

We are looking for someone who has:

- Experience in CI/CD, source control, project management tools etc. (Jenkins, git, Jira, etc.)
- Proficiency in AWS
- Familiarity with modern backend technologies: puppet, Kubernetes, etc.

Bonus points if you:

- Have experience in information security

Please send your application to : **riley.smith@arevo.com**

Software Test Automation Engineer

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Develop a risk-based test plan to determine the highest areas of risk in the product
- Work with other engineers on your team to execute on performance, functional, and integration testing
- Champion the quality process through all stages of the product

We are looking for someone who has:

- Strong experience in software testing across a wide variety of applications and infrastructure components
- Familiarity with QA processes, test management and automated testing tools
- Ability to write clean, maintainable, well-documented code

Bonus points if you:

- Experience with Python, Java, or Scala programming
- Proficiency in Linux/Unix/Mac systems

Please send your application to : **riley.smith@arevo.com**

Security Engineer

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Develop Information Security Plans and Policies
- Configure firewalls across the network, perform penetration testing to identify vulnerabilities
- Investigate current attacks and help stop cyber threats
- Oversee changes to the network and deployment of software to ensure protection

We are looking for someone who has:

- Direct experience with anti-virus software, intrusion detection, firewalls and content filtering
- Knowledge of risk assessment tools, technologies and methods
- Experience designing secure networks, systems and application architectures
- Professional experience in a system administration role supporting multiple platforms and applications

Please send your application to : **riley.smith@arevo.com**

Manufacturing Engineer

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Managing large assemblies and system layout using reference geometry
- Release parts and assemblies, including product structure for manufacturing and ECO process
- CAD mechanical design using Solidworks. Assembly and part tolerancing including GD&T

We are looking for someone who has:

- In-depth understanding of manufacturing processes such as machining, welding, sheet metal forming and 3D printing
- Basic/Intermediate knowledge of precision machine design
- Experience with PDM systems

Please send your application to : **riley.smith@arevo.com**

Technical Writer

Location: Ho Chi Minh City, Vietnam

What you will be doing:

- Write for product and sales/marketing materials (instructions, brochures, etc.)
- Provide documentation support for engineering and operations teams
- Take, enhance, distribute notes from meetings
- Institutionalize / document knowledge throughout the team

We are looking for someone who:

- Loves to write and does so concisely and articulately
- Is supremely disciplined and always known to be early
- Can explain what a linked list is w/o Googling
- Obsessed about good formatting, even more obsessed about good content.
